

Mind the IR35 GAP

Fixed price legally privileged review of your processes taking into account market developments, practice and legal interpretation

Reforms to IR35 in private sector introduced in April 2021

Most public sector and medium/ large private sector end users and their suppliers now have IR35 processes in place

HMRC starting to flex its muscles

At least four government departments have received multi million pound assessments plus penalties

HMRC's "soft landing" IR35 enforcement expires in April 2022

Check processes now before widespread HMRC enforcement to reassure clients and investors

IR35 policies developed in 20/21 need "stress testing" and updating

Talent shortages are increasing the need for a pragmatic but low risk approach to IR35

How we can help:
