

## Examples of our work

### Pharmaceuticals

- Advising a manufacturer on the regulatory regime concerning orphan drugs and alternative routes to market
- Providing advice to companies in relation to the production, manufacture and distribution of cannabidiol (CBD)
- Assisting a pharmaceutical company on its options regarding classification of medicines and obligations under UK pricing rules, including the voluntary scheme for branded medicines pricing and access (VPAS)

### Medical Devices

- Advising a multi-national on the regulatory regime affecting its device and negotiations with the UK Medicines & Healthcare products Regulatory Agency (MHRA) on product classification
- Providing medical regulatory advice to a PE house on investment into a company producing a novel medical device
- Advising a digital technology company on whether an algorithm in an app constituted a medical device

### Digital Health and Software

- Advising a digital primary care provider on EU and UK health and data regulations, preparing global contracting documentation and advice on insurance
- Providing advice to investors in a medical device company focussed on products incorporating software into medical devices
- Supporting a company with its contractual negotiations to allocate regulatory risk and liability within its supply chain

### Healthcare, retail and consumer

- Advising a leading provider on regulatory issues relating to mobile research and decentralised clinical trials
- Providing regulatory advice to a company leasing equipment to NHS hospitals
- Assisting a newly founded company providing care home facilities on its regulatory obligations, including under the Care Quality Commission (CQC)
